(loi n° 200 !"#" \$% &' (%ill)\* 200 +)l,\*i-) ,%. ,+/0i-)12

A diagram showing a cross-section of a landscape. The top part is a white sky area. Below it is a green layer, followed by a yellow layer. A wavy line separates the yellow layer from a blue layer. Below the blue layer is an orange layer, followed by another green layer, and finally a yellow layer at the bottom. The wavy line is positioned such that it appears to be a horizon or a boundary between different geological or atmospheric layers.
